Our Most
Precious Resource

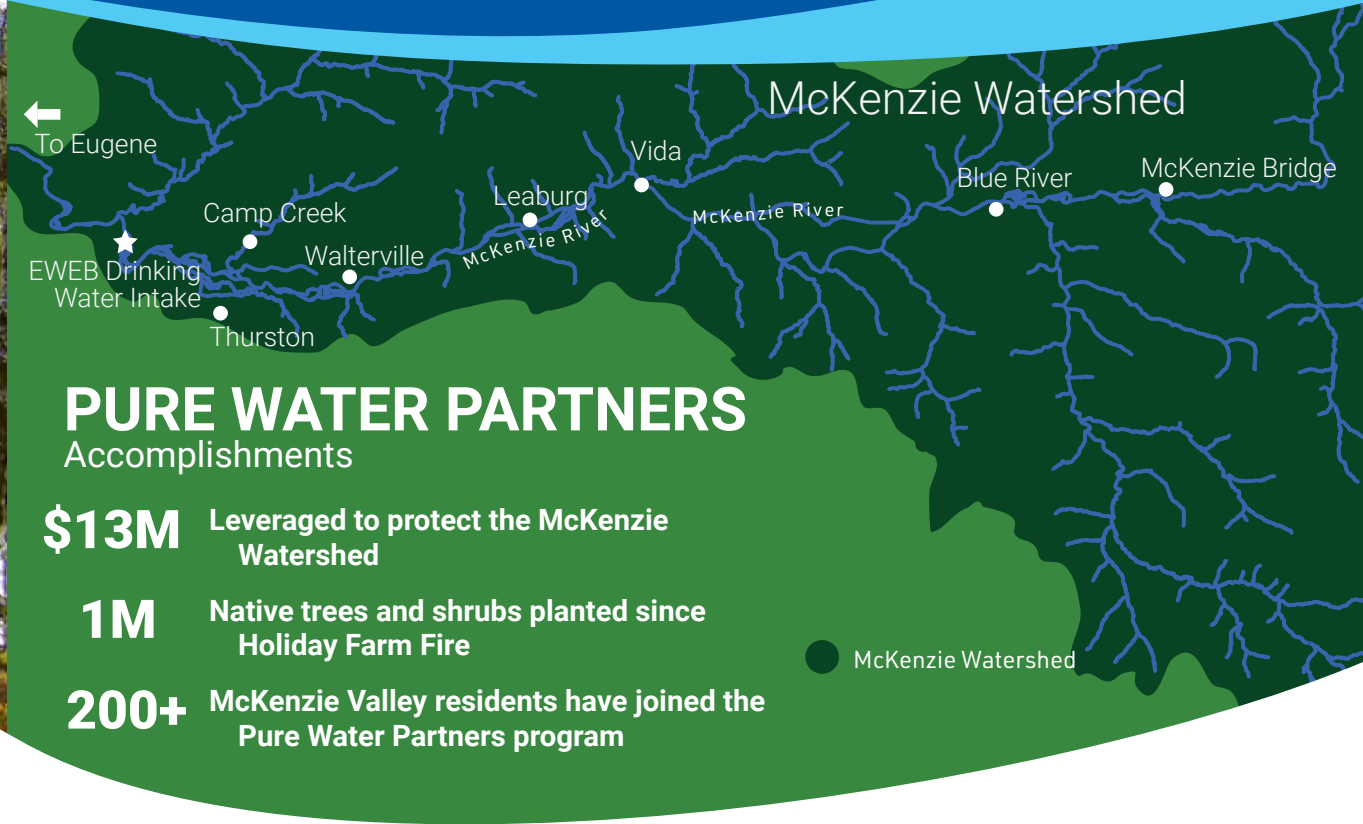

WATER
MAILED

Landowners are essential partners.

Pure Water Partners (PWP) is a collaboration of local organizations, and most importantly, landowners like you, whose properties are adjacent to our critical water sources. Together, through this community effort, we are taking positive steps to maintain pure water today and into the future.

Here in Lane County, we are fortunate to have abundant, clean and pure water resources. Our forests, porous volcanic rock and streamside vegetation filter the rain and snow. The result is crystal-clear streams and rivers that deliver some of the cleanest drinking water in the nation.

However, we can never take the quality of our drinking water for granted. That's why the Pure Water Partners Program was proactively formed to safeguard watershed health as our region's population grows and we experience increased natural disasters, like the Holiday Farm Fire and extreme droughts.

PWP CAN HELP:

Each property has unique characteristics. The PWP team can help you by:

- Assessing your property to recommend improvements, particularly along streambanks.
- Designing restoration projects on streambanks and recommending invasive vegetation management practices.
- Giving you tips for watershed-friendly and fire-resilient landscaping practices.
- Providing financial incentives to maintain healthy riparian habitats.
- Sharing resources including native plant, fire-resilient landscaping, and invasive plant management guides.
- Connecting you to other programs offering additional assistance.

★ We work with landowners upstream of Hayden Bridge, with particular focus on those along waterways.

“For me, joining Pure Water Partners has reinforced the importance of protecting the riparian habitat on my property for wildlife and doing my part to keep the water clean for all of us.”

Jeff Dehne
PWP landowner

PURE WATER PARTNERS Accomplishments

\$13M Leveraged to protect the McKenzie Watershed

1M Native trees and shrubs planted since Holiday Farm Fire

200+ McKenzie Valley residents have joined the Pure Water Partners program

IT'S ALL UP TO YOU:

This innovative program depends on landowners' voluntary participation, and we want to make it as easy as possible for you to join your neighbors. The Partnership rewards land stewardship that protects water quality and provides incentives for restoration efforts that improve the ecological health of the entire watershed.
